

AMANDA

BAG CLOSING SEWING THREAD

AMANDA BAG CLOSING SEWING THREAD

Specially manufactured to be used in industrial sewing machines. The synthetic Amanda thread (100% Polyester) provides the strength and the options you are seeking.

Assuring the maximum efficiency of the seem, the Amanda thread is the appropriate option. A high quality and a low cost product.

Amanda has been in the field of special threads production for the industry since 1975. Synthetic fiber has been chosen as the raw material because it possesses characteristics not found in natural fibers. Synthetic fibers are not influenced for chemicals such as: benzine, tetra, alcohol, ether, or acetone. Polyester threads are manufactured by a chemical process offering high elasticity, strength, and uniformity. They are very convenient for sewing: cement, fertilizer, and sugar bags where high speed sewing heads are used. Also they are very useful in the Grains Agricultural Industry using portable sewing machines as well as stationary industrial type.

THE SUPERIORITY OF THE PRODUCT INCLUDES:

1. Advanced technology.
2. No tie in the cones.
3. Uniform strength of the thread.
4. Waxed threads for a flat seam.
5. Normal thread longitude.
6. The finish and the uniform thickness of the thread prevents breaks thus saving down time.
7. Great resistance to the heat generated by the friction of the needle.
8. 30% stronger than cotton thread.
9. Strict quality controls.
10. All cones are packed in plastic bags for their protection.
11. Oil Treated to avoid overheating during high speed continuous sewing.
12. Large inventory of all types. Immediate delivery.

Cone Sizes	Cones per Box	Box Size (L x W x H) (in)	Weigh Kg (Lbs)	
			Net	Gross
200 g	50	13.0 x 13.0 x 9.4	10.0 (22.0)	10.7 (23.6)
1 Kg	50	29.5 x 19.5 x 14.8	50.0 (110.2)	53.8 (118.6)
5 Kg	9	28.0 x 9.1 x 28.0	45.0 (99.2)	46.9 (103.4)
7 Kg	6	29.5 x 11.4 x 19.7	42.0 (92.6)	43.8 (96.5)
